

English-German Translator (Onsite)

Role Definition

We are seeking a **fluent English-German translator** for **onsite deployment** during **jointing installation activities** as part of the German Corridors Project. The primary role is to facilitate **spoken translation** to ensure a **clear and effective communication chain**, particularly in **Health, Safety, and Environment (HSE) matters**. The translator must be capable of **communicating with local authorities** when necessary and ensuring smooth coordination between English-speaking and German-speaking teams.

Key Responsibilities:

- Provide **real-time spoken translation** between English and German, focusing on **HSE-related communication**.
- Ensure accurate interpretation of **safety procedures, emergency protocols**.
- Communicate effectively with **local authorities** and other stakeholders when required.

Requirements:

- **Fluent in English and German** (spoken and written).
- Willingness to work **onsite** in an **construction environment**.

Work Schedule:

- **Monday to Saturday, from 07:30 to 17:30.**
- Duration: **6-12 months.**
- **Two night shifts required** during the deployment period.

Main working sites are between Hof/Bavaria and Essenbach/Bavaria. On the Route, main locations are Hof, Bayreuth, Weiden, Regensburg, Landshut, also Nuremberg is not far from the route
