

## Career Opportunities

---

The tailor-made curriculum has the Indian student in focus. Its comprehensive outline offers intensive intercultural and language training paired with key soft skills and in-depth business skills. Thus, the GIMS MBA prepares graduates well for management positions in a variety of functions with key areas of responsibility in marketing and sales, logistics or project planning.

Areas of career opportunities are:

- technical marketing manager
- key account manager
- project manager
- procurement manager
- branch- or regional manager

The job market for Indian engineers with techno-commercial knowledge as well as strong competences in German and German business culture is attractive. REHAU AG, WILO SE, NETZSCH AG, HOFTEX Group AG, WÖHNER GmbH and AKG understand the huge potential that lies in graduates from this MBA program and support the program immensely. The program's circle of supporters is continually growing.
